.5% rated the course Fair 8 participants

About the course:

Practical and useful techniques that any investigator can apply to their practice

Great training

Very informative and structured

Loved the interview videos and breakdown

Well organized, great information, helpful examples

Online courses can be difficult but speaker did a good job of keeping class engaged

I've had a lot of Zoom trainings. This one kept my interest the whole time. It was by far the best.

I thought this was super interesting and this training has me excited to begin working.

Very informative and passed my expectations.

Amazing presentation and the presenter is very knowledgeable.

We have all done our share of virtual trainings since COVID- this was put together in a way that it held our interest, made the learning interactive, and allowed for the members to interact with each other.

Really well set up - great note sheet, break-out rooms.

The PDF (course workbook) made it easy to follow along as well as take notes.

Very good interaction for a Zoom course.

I love it! So incredibly helpful and informative.

Very informative and, great presenter, liked the actual interrogation segments

I think it was very interesting and informative. I will definitely try to take the actual training course as soon as I can.

One of the best training sessions I have been a part of. I was invested the entire time.

Great videos and experience from the instructor

Love the handout that can be filled in right on my computer.

Good interviewing techniques, I will apply several in my future interviews.

FOR A ONE DAY CLASS IT WAS GREAT!

This training was extremely effective and efficient. I really appreciate the pace and clarity in the presentation, it was pleasant and easy to follow and understand.

Really enjoyed it and appreciate the virtual platform as I currently work in Europe and travel back to the US for training is expensive.

I feel the training and presentation are fantastic.

I thought it was a phenomenal presentation.

I enjoyed this training. I have attended a few trainings these past few weeks and this was one of the most engaging, interactive, & interesting. I appreciated it and learned a lot.

It was excellent all the way around. I can't imagine improving it.

This was such a good training. The presenter was extremely knowledgeable and the presentation was engaging. Normally virtual training drags along. This was super.

IT WAS A FANTASTIC TRAINING

This was one of the best trainings I've been a part of in a long time. You all did very well for an online presentation.

This was incredible and I wish I signed up for this earlier in my law enforcement career.

About the instructor

The instructor was engaging and kept the class interesting and as a student, I felt involved the whole time.

The instructor was very engaging and kept things moving. Great personality with plenty of experience and knowledge

Very clear. Good pace. Very knowledgeable

Speaker was very knowledgeable and provided good real-world examples.

Very good, took his time, did not talk too fast, gave time for questions. GREAT.

The instructor was great. I don't normally say things like this but he was active, engaging, knowledgeable of the computer and the social media aspects. His delivery kept me interested the whole time. Good job keeping the class on the appropriate page and allowing us to fill in the blanks without getting lost.

The instructor was very knowledgeable and he was great at explaining along with showing what he was speaking about.

Superb! Very knowledgeable and succinct.

One of the best presenters I have ever experienced! Easy to follow and thorough!

Well laid out and presented with real-life examples that were relatable.

Extremely knowledgeable and easy to understand and follow.

Possibly one of the best zoom/webinar courses over the past year.

He knew what he was talking about, did not stumble through the course instruction but remained informative and interactive.

Speaker is a master of the Reid Technique. Thank you for the Information.

Very to the point with subtle humor. This should be taught in every academy.

An amazing speaker! Hoping to attend more of his trainings in the future.

Did the Content of the course meet your expectations?

2,596 (97%) participants indicated that the training program content did meet their expectations

30 participants indicated that the program content exceeded their expectations.

14 participants indicated that the program content did not meet their expectations (in several instances the participant had attended our 4-day in-person training course and thought that this virtual program course would consist of advanced material)

29 participants indicated that they enjoyed the program but that the content did not apply to their jobs.

How likely are you to recommend this training to a colleague or company?

2,185 indicated that they were very likely to recommend this training

456 indicated that they were likely to recommend this training

Total recommending the program = 2,641 of the respondents

15 participants indicated that they were unlikely to recommend the course
